WASHINGTON, Dec. 2.-General Miles, who has been in Washington since last Saturday night in daily consultation with Secretary Proctor, General Schofield and Secretary Noble upon matter relating to the Indian situation in the Northwest, left for Chicago to-day, The General believes that danger is imminent. The seriousness of the situation, he says, has not been exaggerated. The disaffection is more widespread than it has been at any time for years. The conspiracy extends to more different

"You see," replied the lawyer, "in olden times, when all mills were run on the grist plan, and the miller took for his pay, toll from the wheat offered to grind, dishonest millers frequently were indicted for taking more than their share, and in consequence they were debarred from the grand jury, lest they should use such position to hinder the finding of indictments against themselves or their fellows.
